

Steel Storage Room, Prefab Unit House, Container, Easy Roofing Unit. Various Building Types recognized under **Building Standard Law.**

Steel Storage Room

Prefab Unit House

Container

Easy Roofing Unit

(Caution: In principal, buildings made with simple pipe and clamp joints to not comply with building standard law.)

We ask for your compliance in ensuring that no buildings violate applicable laws and regulations and that they comply with building code ordinances.

- Placing it as is on site or a rooftop and using it as is also constitutes as an architectural act. (It does not matter if there is a foundation or not and what kind it is)
- In principle, building permits are required when installing a building.
Please consult with an architect.

※Please refer to the reverse side of this sheet for more information regarding building standard law.
